SPECTRALITE 2000 ROOF & WALL CLADDING

Spectralite 2000 30 % siliconized polyester is a proven performer. It is an excellent exterior finish for pre-engineered buildings, agricultural buildings & components.

- Minimizes chalking and fading by resisting the detrimental effects of the sun's UV rays, rain, humidity and weathering.
- Available in R, PBR, AW, R-Vee and M Panels.
- Spectralite 1000 is the economy class of coatings designed for the cost sensitive jobs. Spectralite 1000 offers good color retention, exterior durability, abrasion resistance to the sun, rain and elements.
- 20 year limited warranty available upon written request except for Crimson (3/5 year warranty) and Spectralite 1000.
- For warranty information outside of the U.S., please inquire.
