SPECTRALITE 3000

Architectural Color Selection - Standing Seam Roof Systems

When the longest life with minimal color fading and chalking is needed, Spectralite 3000 should be specified. Spectralite 3000 is a full strength 70% Kynar® or Hylar® 5000 based coating.

- *Unsurpassed in its resistance to the sun's damaging UV rays.*
- *Offers quality and aesthetics regardless of your project location.*
- *Offers ease of clean up and the ability to fight dirt accumulation.*
- *Limited warranty available upon written request.*

HI-TECH Series Roof Panel

The Hi-Tech Series Roof System utilizes the TS-364 panel system's technology which provides superior wind and weather protection under all loading conditions.

Utilizing a unique patented seam design, the series offers three lock seam features:

PLATINUM Series Roof Panel

The Platinum Series is a revolutionary patented standing seam roof system that incorporates two unique systems: The Triple-Lok seam for normal wind speeds, and the Qual-Lok for coastal areas and other high wind speed zones.

SUSTAINABLE BUILDING

Rigid strives to help protect the environment, which is why our products are made of approximately 89.7% recycled material. In addition to being made with recycled material, it can also be recycled at the end of its life-span helping to conserve energy and reduce waste.

Rigid offers over 30 Energy Star approved colors to aide in the reduction of energy costs through the building envelope.
